MUHAMMAD MUSA SARFRAZ

Python Developer | AI Applications, Web Scraping & Test Automation

Faisalabad, Pakistan | 0309 9666650 | musasarfraz8075@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Python developer and Computer Science student at UAF, currently working in web scraping and lead generation with Playwright and Pandas. Builds AI applications with RAG, LangChain, IBM watsonx and FastAPI, including transcript-grounded video Q&A, a natural-language SQL agent and multimodal image analysis, and writes browser and API test automation with Playwright and pytest.

TECHNICAL SKILLS

Core: Python, FastAPI, REST APIs, SQL, PostgreSQL, MySQL, SQLite, SQLAlchemy

AI and LLMs: RAG, LangChain, IBM watsonx, IBM Granite, FAISS, vector databases, LLM APIs, scikit-learn, OpenCV

Scraping, data and testing: Web scraping, Playwright, Pandas, NumPy, data cleaning, pytest, GitHub Actions, n8n

Tools and familiarity: Docker, Git, GitHub, Jira, Agile, Flask, basic HTML, technical documentation

SELECTED PROJECTS

YouTube Video Summarizer and Q&A | Python, LangChain, FAISS, IBM watsonx, Gradio

- RAG pipeline that summarizes YouTube videos and answers follow-up questions grounded in the transcript.

AI SQL Agent | Python, LangChain, IBM watsonx, IBM Granite, MySQL

- Agent that turns natural-language questions into SQL, runs them on MySQL and returns readable answers.

Musami Web QA | Python, Playwright, pytest, GitHub Actions

- 36 automated UI and API checks for a demo shop, with page objects, failure traces and GitHub Actions CI.

AI Nutrition Coach | Python, Flask, IBM watsonx, Llama 4 Vision

- Multimodal app that identifies food items and estimates portions, calories and nutrients from a photo.

Fashion Style Finder | ResNet50, similarity search, IBM watsonx, Gradio

- Finds visually similar fashion items with image embeddings and generates a structured style analysis.

Inventory Management System | Python, Tkinter, PostgreSQL

- Desktop app for inventory, customers, sales, returns and reports, with automatic stock restoration.

GitPulse (in progress, private) | GitHub data, activity analytics, dashboard design

- Building an interactive dashboard that turns GitHub activity into understandable engineering metrics and health signals.

EXPERIENCE

Web Scraping and Lead Generation Specialist (Python) | EHM Technology Services *Oct 2026 to Present*

- Collect web data with Playwright, then clean and organize it with Pandas to build lead lists.

Project Management Intern | Paklogics *Jan 2026 to Apr 2026*

- Coordinated tasks and sprint tracking in Jira, tested software, reported defects, and maintained project documentation.

Data Science Intern | Nexus AI Digital (Remote) *Sep 2025 to Oct 2025*

- Cleaned and analyzed data, and built regression and classification models with Pandas and scikit-learn.

Python Developer Intern | DeepOxy Logics *Jun 2025 to Sep 2025*

- Python and Flask projects covering backend development, REST API testing, debugging and validation.

Telesales Representative | ACE Services *Jan 2025 to Aug 2025*

- Handled business development and outsourcing tasks for an architecture services firm.

EDUCATION

Bachelor of Science in Computer Science | University of Agriculture Faisalabad *2023 to 2027*

Intermediate in Computer Science | Army Public School and College System *2021 to 2023*

CERTIFICATIONS

- IBM (Coursera): Build Multimodal Generative AI Applications; Advanced RAG with Vector Databases and Retrievers; Vector Databases for RAG: An Introduction; Build RAG Applications: Get Started
- IBM RAG and Agentic AI Professional Certificate (in progress)
- CI/CD Pipeline with Docker, 2026
- Google: AI Fundamentals, 2026; Crash Course on Python, 2025; AI Essentials and Prompting, 2025
